

Backing Requirements for Quilting

For loading purposes, 4" extra is need on all sides to attach the leaders to the top and bottom and on the sides to clamp the backing so that there are no wrinkles in the backing fabric. Measure your quilt top, then add 8" in length and width for the backing fabric.

Example: top is 60" x 70". Backing would need to be 68" x 78".

A \$10 fee will be added to your invoice if you do not give the minimum 4" on each side of your quilt backing.
